NEK-CAP, Inc. is an equal opportunity provider and employer.

FILLING THE GAP Summer Youth Food Program

NEK-CAP, Inc., and Kansas Food Bank collaborate to offer Filling the Gap, a youth summer food program, for eligible youth (ages 1 to 18) during the summer when school is out. With the help of local health departments and hunger advocates, we are able to Fill the Gap and provide missing summer meals to children at risk of going hungry. Over 100 youth are served through this program offered in the six Northcentral counties of Jewell, Mitchell, Osborne, Republic, Smith and Washington.

One mother said, "This makes a big difference to my children and our family!"

Filling the Gap Summer Youth Food Program provides free shelf-stable, pre-packaged meals to eligible youth each week that are participating in the program. This program was created to ensure that low-income youth continue to receive balanced and nutritious meals while school is not in session. Summer is a time when children who rely on free and reduced meals at school struggle the most. Meals that they depend upon daily are not available to them.

Summertime is a time when children and families are most at-risk of hunger. Nearly one in five children in our state faces hunger on a daily basis -

- **Jewell County:** 19.3% of children are food insecure (110 children)
- **Mitchell County:** 14.3% of children are food insecure (190 children)
- **Osborne County:** 15.7% of children are food insecure (120 children)
- **Republic County:** 13.4% of children are food insecure (130 children)
- **Smith County:** 13.1% of children are food insecure (90 children)
- **Washington County:** 12% of children are food insecure (140 children)

[Feeding America](#) found that 1 in 7 Kansas children (i.e., 102,760 children) face food insecurity.

School's out,
HUNGER'S NOT!

Based on community assessment, Filling the Gap will provide daily and/or weekend meals to low-income, food insecure children throughout the summer months. Meals include lunch and breakfast along with shelf stable milk to ensure complete nutritious meals are served meeting children's dietary needs.

Studies have found that food insecurity may hinder children's ability to function normally, participant fully in school and other activities; may be at higher risk of behavioral issues and social difficulties. With increased nutrition children should have decreased

hospitalization, decreases in asthma and anemia, and increased social functioning.

When applying for Filling the Gap Program, applications are accepted online at <https://www.nekcap.org/menus/family-community-resources.html> - Applications for Mitchell, Osborne, Republic, and Smith Counties are due by March 24th. Applications for Jewell and Washington Counties are due by April 3rd. Dates and locations of distribution will be announced prior to the end of the school year.
